

What We Do

We turn potential into performance, managers into leaders, vague ideas into clear strategies and training budgets into powerful drivers of business performance.

If you want your
people to grow...

...Just add Yeast!

Our Services

We know that developing your people and growing your organisation is difficult. But in order to thrive, every organisation needs to invest in its talent.

Our business-focused approach helps you measure the ROI on your spend, so you can invest more in the right areas and in the right people.

The Right Ingredients

Without yeast, even the best ingredients won't work. Without the right people, structures and processes, an organisation won't ever rise to fulfil its potential.

Let Yeast be your catalyst for growth!

- Recruitment & Retention – recruit smarter (use mental toughness and other psychometric assessments)
- Optimise retention rates and minimise unwanted leavers
- First 100 days Coaching Support – help your key hires to hit the ground running and start making an effective contribution in the shortest possible time.

Kneading:

Once you've selected the best ingredients, you need to work to combine them in the best way to deliver the best results.

Choose from our a la carte or set menus (individual modules or bespoke, multi-day courses)

- Building Winning Teams
- Motivation
- Effective Delegation
- Time Management
- The Leader as Coach – Building a Coaching Culture
- Communication Skills
- Presentation Skills
- Negotiation Skills
- Influencing Skills
- Finance for the Non-Financial Manager

Proving:

We provide focused follow-up coaching over a period of up to 12 months, specific to all the modules we offer, to prove the benefits of our training.

Baking:

We will help you develop a coherent vision and an organisational culture that is right for you.

We'll work closely with your senior leaders and HR teams to go beyond simple buy-in and engagement to develop real employee advocacy - this is a game-changer!

Quality Assurance:

We'll help you get it right and reward the right behaviours and the right level of performance:

- Appraisals – structures and process
- Managing Difficult Conversations
- Performance Improvement Plans
